Met Office Mountain Weather Forecast

Brecon Beacons National Park

Forecast valid from 06:00 on Saturday 10 Sep 2022 until 23:59 on Sunday 11 Sep 2022

Forecast Issued on Saturday 10 Sep 2022 at 04:25

Confidence: High confidence for the weather becoming more settled this weekend, and a change to more unsettled conditions again early next week. Lower confidence though regarding rainfall details during the early to middle part of next week, with the potential for it to turn warm and humid for a while, and with fresher, but more settled weather gradually expected to arrive from the northwest.

Headline for Saturday 10 Sep 2022: Cloudy at first with some mist or fog patches, although mainly dry. Brightening up, but with the chance of a few showers developing. Clearer spells this evening.

Mountain weather hazards on Saturday 10 Sep 2022

Blizzards No Likelihood	**Heavy persistent snow** No Likelihood	**Storm force winds** No Likelihood
Gales No Likelihood	**Severe chill effect** No Likelihood	**Poor visibility** Low Likelihood

Forecast for Saturday 10 Sep 2022

Weather: Mostly cloudy this morning, with the chance of some early mist or fog patches, although generally dry. Cloud lifting and breaking this afternoon to give some late sunny intervals, although a few light showers may develop. Fine heading this evening with late sunshine followed by clear spells after sunset.

Chance of cloud-free hill tops above 600m: 30% or less this morning, then rising above 80% away from any showers for this afternoon and evening.

Low cloud and visibility: Moderate or poor at first in mist or fog patches, but improving to become very good or excellent away from any showers for this afternoon and evening. Dropping to moderate with any showers.
